

# TANK STORAGE CANADA

## expo & conference

3-4 October 2011, TELUS Convention Centre, Calgary, Canada

Co-hosted with

**biofuels** international  
Canada expo & conference

Register today: Tel: +44 208 687 4126 Fax: +44 208 687 4130

#### Hear from storage terminal experts including:

**Alan Crossley**  
Partner, Osprey Capital Partners

**Juan Morera**  
Lead, Terminals Engineering  
& Tank Specialist (Consultant),  
TransCanada Pipelines

**Skip York**  
Vice President, Downstream Oil  
Wood Mackenzie

**Paul Paynter**  
Calgary Economic Development

#### Hear from Bioenergy experts including:

**Dr. Hunt Ramsbottom,**  
CEO, Rentech

**Jon Scharingson,**  
Director, Marketing, Renewable  
Energy Group

**Douglas Cameron,**  
Founder and Managing Director,  
Alberti Advisors, LLC

**Marie-Hélène Labrie,**  
Vice-President, Government Affairs  
and Communications, Enerkem

### 2 FOR THE PRICE OF 1

Bringing together experts from the entire supply chain all in one location – from oil majors and biofuel producers to suppliers and bulk liquid storage terminals!

Brought to you by leading industry publications **Biofuels International** and **Tank Storage** magazine!

# TANK STORAGE CANADA

## expo & conference

The hugely successful combined **Tank Storage Canada/Biofuels International expo & conference** is back for its third year on 3-4 October.

The location chosen for the event is Canada's 'energy province' Alberta and this year the event is in downtown Calgary, in the heart of the action.

Canada is the second largest oil producer, second only to Saudi Arabia, and the number one oil exporter. As such storage and distribution infrastructure is vital to support the region's growth.

The country has significantly boosted its production over the last decade as companies have developed Alberta's oil sands. From 2.7 million barrels a day in 2000 output surged to 3.4 million last year.

At this year's two day conference terminal and pipeline operators, as well as traders, analysts, regulators, renewable energy producers and technical experts will come together to discuss the key issues impacting the sector.

These range from infrastructure developments, market trends, new API standards, biofuels integration, changes in trade flows, terminal acquisitions, reducing risk at the terminal and updates on safety technology.

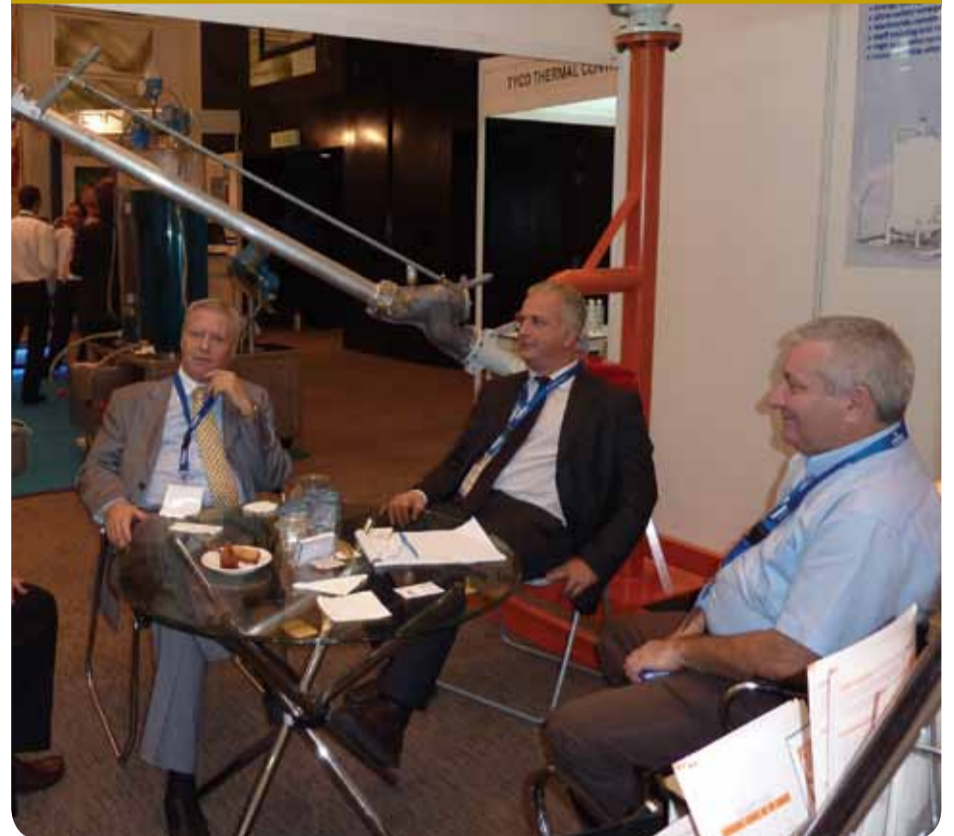

Organised by the industry leading Tank Storage magazine, **Tank Storage Canada** is co-hosted with **Biofuels International Canada expo & conference** giving attendees an additional insight into the emerging biofuel technology, production, storage and handling in the region. With the emergence of the biofuels market in Canada the conference will offer the latest news and updates. **Tank Storage Canada** is the only event that can offer you double the exposure in one event.

If there is one event you attend this year it must be **Tank Storage Canada**. We look forward to welcoming you to Alberta in October.

Peter Patterson  
Managing Director

### Previous attendees to our storage events include:

Vopak • Vitol • Oiltanking • BP • Odjfell • Chevron • Decal Espana • Shell • ADPO • Antwerp for Storage • Nordic Storage • Argos Oil • Deutsche Bank • East India Petroleum • Fortis Bank • Ernst & Young • ExxonMobil • Global Infrastructure Partners • Helios Terminal Corporation Ltd • International Energy Agency • Saudi Aramco • Stolthaven • BASF • NuStar Energy • Westway • Cargill • Baltic Tank • Chemoil • Simon Storage • LBC • Oikos • Dow • DuPont • Rubis • Esso • Ineos • Rotary Engineering • Peter Cremer • Kuwait Petroleum • Standic

### Access to the Presentations & Certificate of Attendance:

All delegates attending the conference will receive online access to all the presentations after the event. Delegates will also receive a signed & authorised official certificate of attendance.

### Who should attend

- Oil & chemical terminal managers
- Commercial & business development managers
- Inspection & maintenance personnel
- EHS managers
- Security managers
- Procurement managers
- Tank engineers & technicians
- Suppliers & product manufacturers
- Consultants & advisors
- IT Managers

# biofuels international

## Canada expo & conference

### Previous attendees have included:

Ecopetrol • Dow Chemical • Mission Biofuels • Societe Generale • SK Energy • Lukoil • Cargill • Peter Cremer • Rabobank • Biofuels Corporation • Petrotec • Neste Oil • St1 Biofuels • Bio-ethanol Rotterdam • Total • Shell • Solvay solexis • Mercuria Energy Trading • Standic • Royal Vopak • Oiltanking Amsterdam • EOP Biodiesel • TNO • Bronzeoak • 3B Biofuels • Pertamina • EOP Biodiesel • Dong Energy • Ineos Bio • Argent Energy • Tereos • Novozymes • Future Prelude • SMC Sintal\VD • Degussa • Grand Valle Bioenergia • De Smet Engineers & Contractors • Department of Energy and Climate Change • Danish Embassy

Brought to you by Biofuels International magazine and Biofuels Digest the prestigious **Biofuels International Canada expo & conference** is back for the third year running in downtown Calgary, Alberta.

The high level two day event will present the production, feedstock and technology opportunities in the market.

From federal to the local level, public to private, and across the supply chain, key speakers will explore project opportunities, how to tap public support, lessons learnt from the US and much more.

Shell has recently intensified its R&D investments in cellulose ethanol and centralised its strategy around ethanol. What does that mean for its investment in Iogen? MSW has become the hottest go-to, at-scale feedstock around – what does that mean for cities like Edmonton and companies like Enerkem? Sustainable aviation and other drop-in fuels are all the rage – what does that mean for the Olympiad project – the biggest advanced biofuels project yet planned for Canada.

No matter whether you are a project developer, a feedstock aggregator, a downstream vehicle or fuels marketers, or your interest lies in policy, R&D or finance, you'll find a transformational experience awaiting you in Calgary.

We look forward to meeting you there!

Peter Patterson  
Managing Director

### Who should attend

- Biofuels producers
- Fleet managers
- Blenders
- Fuel suppliers
- Sales & marketing directors
- Vehicle manufacturers
- Fuel traders
- Technical directors & process engineers
- Business analysts
- Distributors
- Product developers & operations managers
- Fund managers
- Energy economists & consultants
- Chemical manufacturers
- Refinery & terminal managers
- Business development managers
- Procurement managers & specialists
- Policy makers
- Commodity traders & analysts
- Venture capital investors
- Vegetable oil refiners
- Energy & environmental researchers
- Equipment suppliers

# Tank Storage Canada Conference Programme

## Day 1: 3 October 2011

**9.00 Chairman's opening remarks:**  
*Skip York, Vice President, Downstream Oil Wood Mackenzie*

**9.30 Overview of North America's Petroleum Storage Sector**  
*Juan Morera, Lead, Terminals Engineering & Tank Specialist (Consultant), TransCanada Pipelines*

**10.00 Calgary: Canada's global energy centre**

- Energy sector overview
- Alberta's production and export statistics
- What does the future hold for Alberta's oilsands?
- Investment and trade opportunities
- Integrating renewable fuels into the supply chain

*Paul Paynter, Calgary Economic Development*

**10.30 Networking break in exhibition hall**

**11.30 API 2350 – The Next Edition (4th)**  
*Phillip Myers, PEMY Consulting*

**12.00 Pipeline infrastructure update**

- Update on expansion programmes
- Changes in trade flows
- Infrastructure requirements and future outlook

*Skip York, Vice President, Downstream Oil Wood Mackenzie*

**12.30 Networking lunch in exhibition hall**

**2.00 Opening remarks from the chair**

**2.15 Integrating renewable fuels into the supply chain**

- Infrastructure in place to support the seamless integration of renewable fuels in north America
- What new developments are needed?
- Overcoming the technical challenges of distributing renewable fuels
- Biofuels blends levels across North America

*Arun Bhargava, market manager for biodiesel, CN North America Railroad*

**2.45 Storage and trade optimisation across North America**

- Changes in trade flows
- Efficient transportation and logistics
- Renewable fuels blending
- Risk management

*Thomas Ramsey, COO of Energy, Gavilon*

**3.15 Networking break in exhibition hall**

**3.45 Ensuring tank integrity and regulatory compliance through inspection**  
*Senior Representative, RAE Engineering and Inspection*

**4.15 Rejuvenate existing storage tanks**  
*Kelly Baker, Sales Manager, Tank Lining Division, Nilex*

**4.45 Closing remarks and close of conference day one**

## Day 2: 4 October 2011

**9.00 Chairman's opening remarks:**  
**John Cornell, API tank trainer**

**9.30 Understanding the Storage Tank Systems Regulations for Petroleum and Allied Petroleum Products Regulations which came into effect June 2008**

- Do the regulations apply to me?
- What is the purpose of the regulations?
- What are my responsibilities?
- What are the critical timelines?
- Where do I find out more information?

*Murray Heap, Compliance Promotion Officer, Environment Canada*

**10.00 Recent terminal sales across North America: key trends and valuation factors**  
*Gregg Manzione, Nationwide Consulting Company*

**10.30 Networking break in exhibition hall**

**11.15 API update**  
*John Cornell, API tank trainer*

**11:45 Driving forces behind environmental risk management**

- Exposure overview and Damages
- Environmental Risk Management Options
- Pollution Coverage under Property and Casualty Insurance
- Dedicated Environmental Insurance Products

*Adrian Pellen, Vice president, Aon Reed Stenhouse*

**12.15 Networking lunch in exhibition hall**

**2.00 Opening remarks from the chair**

**2.15 Investment opportunities within the bulk liquid storage sector**

- Analysing Trends That Will Affect Price Volatility
- Market outlook for 2012
- Advice on M&As
- Securing finance needed for terminal expansion plans

*Alan Crossley, Partner, Osprey Capital Partners*

**2.45 Complying with the updated 4th edition of API2350 standard on overfill prevention**

- What has changed and how will this impact you?
- Why were the changes needed?
- Implementing the necessary technology for compliance

*Carl-Johan Roos, Marketing manager, Emerson*

**3.15 Networking break in exhibition hall**

**3.45 Cost and efficiency benefits from jet mixing**  
*Senior Representative, Allerion Oilfield Services*

**4.15 How to reduce lightning-related tank fires**  
*Joseph A. Lanzoni, Vice President of Operations, LECGlobal*

**4.45 The benefits of automated robotic tank cleaning**  
*Senior Representative, Young Energy*

**5.15 Closing remarks and close of conference**

Please note the conference programme is subject to change. All information was correct at time of printing

# Biofuels International Canada Conference Programme

## Day 1: 3 October 2011

### FEDERAL AND PROVINCIAL PERSPECTIVES ON CANADIAN RENEWABLE FUELS

#### 9:00 Opening Remarks

#### 9.10 Canadian Biofuels Development - National Policy Framework - Is There One and Is It Adequate?

- Current National Policies and current issues, trends and directions  
*Dr. Murray McLaughlin, Chair, Industrial and Agricultural Policy Committee, BIOTECanada*

#### 9.30 Sustainability - The New Gorilla in the Room

- Why sustainability is a critical topic for Canadian biofuel companies and canola/wheat farmers, given the export oriented nature of Canadian agriculture  
*Dennis Rogoza, President, Rogoza Consulting Group Inc. and Advisor, Sustainability, Canola Council of Canada*

#### 9:50 Standards and Tools for Sustainability Compliance

- Results of GHG emissions calculations for Canadian biofuel pathways
- Update on the Canadian RSB regulatory benchmarking initiative to demonstrate compliance with RSB criteria
- Other sustainability issues of relevance to Canada

*Peter Ryus, Manager, Certification and Implementation, Roundtable on Sustainable Biofuels*

#### 10:10 Panel Discussion

*Federal and Provincial Perspectives on Canadian Renewable Fuels*

#### 10:30 Networking break in exhibition hall

#### 11:00 Keynote address - Developing Renewable Energy Projects with International Resources

*Dr. Hunt Ramsbottom, CEO, Rentech*

### FINANCE SESSION

#### 11:30 The Role of Bio-based Chemicals in the Biofuels Industry: Financing and Business Strategy

- The importance of bio-based products in biofuels financing and in business strategy  
*Douglas Cameron, Founder and Managing Director, Alberti Advisors, LLC*

#### 11:50 Successful Examples of Commercial Scale-Up

- Review of Imperium Renewables Scale-up from inception to execution of its scale-up strategy and operation of the Nation's largest BQ9000 biodiesel facility
- How funding was raised, what does \$250 million dollars get you, and why does it go so fast: What are the challenges for commercializing 2nd and 3rd generation biofuels, and the future of Imperium and our vision for bio-distillates  
*John Plaza, President & CEO, Imperium Renewables*

#### 12:10 Project Finance Opportunities, Structures and Credit Enhancement Mechanisms

#### for the Advanced Biofuels Industry

- Financing structures and the opportunities for the use of federal loan guarantees to provide credit enhancements for debt financing, including the intricacies of filing a competitive loan guarantee application  
*John M. May, Managing Director, Stern Brothers & Co*

#### 12:30 The Next Generation Biofuels Fund

*Guy Quimet, Senior Advisor, Sustainable Development Technology Canada (SDTC) (Invited)*

#### 12:50 Panel Discussion

Finance

#### 1.10 Networking Lunch in Exhibition Hall

### BIOFUELS EXECUTIVES SPEAK

#### 2:20 Building a Path to the Market through Partnerships

- Strategic and operational drivers, and lessons learnt in forging and structuring such a "go to market" and financing agreement
- The broader development implications of this strategy for the Canadian market in commercializing cellulosic ethanol, from raw materials supply, to pre-processing, through Mascoma's CBP process and into final distribution  
*William Brady, President and CEO, Mascoma Corporation*

#### 2:40 Partnering with Governments for the Development and Commercialization of Advanced Biofuels

- The role of governments in the development and commercialization of advanced biofuels from R&D initiatives to capital programs for the construction of commercial plants
- Enerkem as an example of an advanced biofuels company working closely with governments for the advancement of second-generation biofuels  
*Marie-Hélène Labrie, Vice-President, Government Affairs and Communications, Enerkem*

#### 3:00 Kenneth Field, Chairman and Founder, GreenField Ethanol (invited)

#### 3:20 Panel Discussion

Biofuels executive's speaker session

#### 3:40 Networking Break in Exhibition Hall

#### 4:10 North American Bio-Fuel Crops - Can They Sustain a profitable value chain?

- Recent attempts to grow oilseed crops such as camelina as feedstocks for biodiesel have met with limited success due to production costs and profit margins represented by biodiesel production are extremely thin
- The Linnaeus DuPont collaboration as an example to improve camelina for high value industrial applications and its future impact on bio-diesel production.  
*Jack Grushcow, CEO, Linnaeus Plant Sciences Inc.*

#### 4:40 North American Biodiesel Market Outlook: 2011 and 2012 (Impact of Canadian and US Federal Mandates)

- Renewable Energy Group present

information on the synergies between the U.S. and Canadian Renewable Fuels Standard, outline how provincial and state requirements and incentives are driving demand and infrastructure build-out and talk about production and consumption data

*Jon Scharingson, Director, Marketing, Renewable Energy Group*

#### 5.10 Closing remarks and end of conference programme day one

## Day 2: 4 October 2011

#### 9.00 Opening Remarks

### FEEDSTOCK SESSION

#### 9.10 Carinata - a New, Sustainable Feedstock Crop

- Agrisoma is pioneering the commercialization of an elite, non-food energy crop, Brassica carinata for 2012 launch, leading activities across the energy feedstock value chain - from growers to processors to biofuel manufacturers to end-users - to ensure the delivery of an energy feedstock crop with enhanced yield of uniform, high quality oil for biofuel production  
*Steven Fabijanski, President and CEO, Agrisoma Biosciences, Inc.*

#### 9:40 Forestry-to-Fuel: Large-Scale Production of Liquid Transportation Fuels from Sustainable Cellulosic Feedstocks

- How Catchlight Energy is developing large-scale production of biofuels by leveraging Weyerhaeuser's strengths in managing large-scale ecosystems and Chevron's strengths in integrating bio-products into existing petroleum infrastructure  
*Michael H. Burnside, President and CEO, Catchlight Energy LLC - A Chevron / Weyerhaeuser Joint Venture*

#### 10:10 Panel Discussion

Feedstocks

#### 10:40 Networking Break in the Exhibition Hall

### HOT TECHNOLOGIES

#### 11:10 CORE BioFuel's MKS Process

- Case study of MKS Process and ZFI Gasoline  
*George Stanko, President and Chairman of the Board, CORE BioFuel*

#### 11:30 Inbicon's Technology Scale-up and Development

- Case study on the new technology and the next steps in its commercialization  
*Paul Kamp, Vice President, Inbicon*

#### 11:50 Developing a Forestry Based Biorefinery: Production of High-Value Renewable Chemicals and Fuels from Lignocellulosic Feedstocks

Case study of Lignol's solvent based extraction technology enables the production of a valuable High Performance Lignin (HP-LTM) from a variety of lignocellulosic feedstocks  
*Colin South, CTO, Lignol Biofuel*

#### 12:20 Scale-up and Biodiesel Plant Design

- Latest technological developments

- Examining energy maximisation and cost-effectiveness
- Improving yields
- Safety considerations  
*Rod Beasley, Director, Ricardo, Chief Engineer, Ricardo US*

#### 12:50 Panel Discussion

Hot Technologies

#### 1:10 Networking lunch in the exhibition hall

### PROVINCIAL SHOWCASE

#### 2:30 The Government's Role in Developing a Bio-Industrial Economy

- The challenges, prospects and trends in government support of the development of a bio-based chemicals industry in Canada  
*Morley Kjargaard, Business Management Specialist, BioIndustrial Technologies, Alberta Agriculture and Rural Development*

#### 2:50 Alberta's Bioeconomy: Creating New Opportunities

- Case studies of Alberta investment in technology innovation and commercialization which have resulted in new bio-opportunities in transport fuels, heat, electricity, chemicals, materials and food  
*Stanford Blade, CEO, Alberta Innovates*

#### 3:00 Building a World Class Bioenergy Capability in British Columbia

- BCBN's mission, partnerships and project support and funding in building a stronger Biofuels Industry in British Columbia  
*Michael Weedon, Project Director, BC Bioenergy Network (invited)*

#### 3:20 Networking break in the exhibition hall

#### 3:50 Synergy Opportunities Building from Biofuel Plants

- The synergy opportunities to site existing biofuel production facilities make a lot of sense. A few key benefits - existing zoning, weight scales, transportation infrastructure, co-product streams (e.g. CO<sub>2</sub> heat), feedstock infrastructure will be reviewed for potential wise business decisions  
*Gord Surgeoner, President, Ontario Agri-Food Technologies, Agri-Technology Commercialization Centre*

#### 4.10 THE FUTURE - Building a Hybrid Chemistry Cluster

- Biofuels are leading the way to a future, with hybrid chemistry becoming a major value chain component. Communities such as Sarnia, Ontario are focused and will become a model for others as it builds its Hybrid Chemistry Cluster.  
*Dr. Murray McLaughlin, Executive Director, BioIndustrial Innovation Centre (BIC); President & CEO, Sustainable Chemistry Alliance (SCA)*

#### 4.30 Strategic Networking

#### 5:30 End of Conference

Please note the conference programme is subject to change. All information was correct at time of printing

# Exhibit now!

## About the organisers:

Biofuels International magazine is published 10 times a year and is the leading global publication in the market. Designed to appeal to those who wish to learn and be kept abreast of this increasingly important area, the magazine encompasses biodiesel, bioethanol and biomass.

[www.biofuels-news.com](http://www.biofuels-news.com)

Tank Storage magazine is the world's only publication dedicated 100% to the bulk liquid storage industry. It is read by terminal managers, senior engineers, logistics/distribution managers and CEOs within oil, gas and petrochemical facilities as well as third party terminal operators.

[www.tankstoragemag.com](http://www.tankstoragemag.com)

## Exhibiting and sponsoring gets you noticed!

This event will provide your company with the ideal opportunity to promote your services to an enviable selection of global decision makers from both the biofuels and bulk liquid storage sectors. Can you afford not to be present?

For exhibition and sponsorship prices contact:

**Biofuels International**

Bill Lundberg, Tel: 001 774 270 0358, [blundberg@me.com](mailto:blundberg@me.com)

**Tank Storage**

David Kelly, Tel: +44 20 8687 4156, [david@tankstoragemag.com](mailto:david@tankstoragemag.com)

For a list of exhibitors and updates please check the website: [www.biofuelsinternationalexpo.com/canada/floorplan.html](http://www.biofuelsinternationalexpo.com/canada/floorplan.html)

## Media partners

The last Biofuels International and Tank Storage conferences attracted a total of over 1000 participants!

**By registering you will receive access to both Biofuels International and Tank Storage Canada expo & conference for the same price!**

## Registration

### 5 Easy Ways to Register

- Online:** [www.tankstorageevents.com/tscanada](http://www.tankstorageevents.com/tscanada)  
[www.biofuelsinternationalexpo.com/canada](http://www.biofuelsinternationalexpo.com/canada)
- Email:** [rebecca@horseshoemedia.com](mailto:rebecca@horseshoemedia.com)
- Phone:** +44 (0) 20 8687 4138
- Fax:** +44 (0) 20 8687 4130
- Mail:** Horseshoe Media Ltd  
Biofuels International Expo  
Marshall House,  
124 Middleton Road,  
Morden, Surrey, SM4 6RW, UK

### Pricing

Admission to the exhibition is free of charge for all. However, we would recommend registering now in order to save time on the day.

The conference delegate fee is only CA\$1,395.

There is a day rate of CA\$750.

The above rates are subject to GST 5% for Canadian residents. Included in the conference delegate fee is:

- Entry into both the Biofuels International and Tank Storage Canada conference
- Free access to all lunches & networking sessions
- Free entry to the exhibition
- Unlimited use of our networking software prior to the event
- Access to all papers post conference
- Certificate confirming attendance

#### Tank Storage conference

Registering for:  Conference & Exhibition  Exhibition only  
Days Registering for:  One day  Two days

#### Bioenergy International conference

Registering for:  Conference & Exhibition  Exhibition only  
Days Registering for:  One day  Two days

Please indicate which conference you would like to attend. This is only to ensure there is sufficient space in the conference hall and delegates will still be able to move between both events.

### Cancellation Policy

For cancellations the following refunds will be applicable:

Up to 4 weeks before: 75% refund      Up to 2 weeks before: 25% refund  
Up to 3 weeks before: 50% refund      1 week before or less: 0% refund

### How did you hear about us (please tick)?

- Colleague     Industry Magazine/Newspaper
- Internet     Email     Advertisement
- Exhibitor     Other (please specify)

### Delegates Details

**There is a 10% discount for the second delegate from the same company registered and 25% for each subsequent registration**
